> A Pokemon Fanfiction By Guardian of Mewtwo
 Notes: I know, I know. Your thinking "Doesn't she have a Life?!! " I do, and this is part of it! ^-^()

> This story takes place a loooooonnggg time after Ash is a Master. He's 21, even O_o! Brock is about 30 @_@, and is Married to Joy(which one? The one that was in the movie!) Misty is 23 (I know, I know, this is scary) Pikachu is still Pikachu, and still follows him around. Misty's Psyduck evolved, and Ash went out with Misty ^_~! After a few dates, their destiny was clear and Ash presented Misty with a Ring!!!! Yayy!! She nodded eagerly. OK, I've babbled enough, now on with the story!
 Ash bounced out of bed which stirred Misty in the other room. He wasn't as childish as he was so long ago, and neither with Misty. Misty no longer wore her hair that way, but had it hang loosely. She had changed physically too. Misty no longer yelled at people with a rough voice, but gently talked out arguments with a soothing voice. Misty had long, slender, legs, instead of relatively thick ones. Her eyes weren't green anymore, but were sky blue.

> Ash had changed too, for he also, wasn't arguable. He had a deep voice, and no longer wore that hat. Pikachu no longer wanted to tangle with him, for he was strong now. He could throw Pikachu across a football field if he wanted to. He wasn't muscular, though. His eyes brightened from black to brown.
This was Ash and Misty's day.

>Their Wedding day.
 Misty sighed and walked over to her dresser. Getting on her slip, a knock came. "Come in," Misty called, "Is that

you, Sabrina?"

> A call came from the other side of the door, "Yup. Just me, your Bride's Maid!"
 Misty smiled. Sabrina had been a good friend to her. She was possessed the time she turned Misty into a doll. Even before that, when Misty was taunted by her sisters, Sabrina would tell them to bug off. Sabrina, older then Misty's sisters would gulp and obey. Sabrina then announced Misty true guardian of the Cascade badge.

> Sabrina stepped in and said, "It's your big day!!"
Sabrina sounded very teen-ish in spite of the fact she's 30.

>Sabrina hauled in Misty's wedding dress. It was Pure white. It made doves look dirty. It fell in cascades, and had hints of light blue. Her veil was light blue, and set with pearls and sapphires.
Misty felt like she had a million weights of stress put on her shoulders. Misty felt like crying. How will I get through with it? I'm so scared... Mom, I wish you were here to help... Misty remembered Ash's Butterfree, so long ago. How it found a mate then left the family. She then wondered where it was.

> Sabrina noticed a tear go down Misty's cheek. "Nervous?"
 "Duh."

> "I leave you alone."
 Misty wished her mother was there. Her mother died of cancer. Her father also had cancer. "Dang cancer..." Misty sobbed.

> Misty felt a heard a soft fluttering sound. She also heard a calming voice saying, "Your fine, I felt the same way."
Misty turned, and was staring in the face of a young girl

>The girl replied, "I am Venus, your husband to be's Butterfree's Wife.
 Misty gasped, "You're that pink Butterfree! Where's Ash's Butterfree?"

> "Mushi? He is with Ash. Ash is scared too."
 With that, Venus summoned a Light. She flapped her wings hard creating sleep powder.

> A scene appeared. It was a boy with wings as well. "That's Ash's Butterfree!!!"
 "Mushi and I were talking about destiny. We were destined by Love."

>You and Ash were destined by fate."
 Misty understood now. It was fate. It was love too, but mostly it was fate. Venus began to disappear. Misty quickly Asked, "Are all Pokemon human?"

> "Maybe."
 Rapping was heard at the door. Misty stood, ready to face the world. Swinging the door open, Ash flopped on her foot.

> "Same old, Same old."
